Subject : Letter of admission to École Centrale de Lille

KRISHNA VAIBHAV

Date of birth : March 29, 2001

Mobility period : February 2026 – August 2026

We are pleased to inform you that you have been admitted to the S8 exchange program in English set up as part of the cooperation agreement between your University and the École Centrale de Lille. The study period will start on February 16th until June 26th, 2026. However, we require you to be present at École Centrale de Lille one week before classes start to complete all the needed administrative procedures and participate in welcome and integration activities.

Resit sessions generally take place during the last two weeks of August. It is your responsibility to ensure that you can stay in France until that date. The details of the academic programme will be confirmed to you at a later stage.

During your stay, you will be assigned an academic supervisor upon your arrival.

You will be informed about the procedure and the supporting documents required for registration later.

As established in our agreement, you will be exempt from tuition fees at École Centrale de Lille. However, you are responsible for your personal expenses during your stay (travel, accommodation, insurances, Intensive French Course, among others).

Do not hesitate to contact the office for International and Academic Relations if you need additional information: international.mobility@centralelille.fr

We look forward to seeing you on campus.

Mathieu Thomas de la Pintièrre
Directeur des relations internationales et
académiques
